The Trans-West Story

For over 50 years Trans-West Process Solutions has been a key provider of process controls and automation equipment to sectors such as the Pulp and Paper, Mining, Water Treatment, Waste Water, Automation, Fertilizer Manufacturing and numerous other industries.

Together with the key relationships with our trusted manufacturers and suppliers, Trans-West has been providing equipment, problem solving and integrated solutions to our valued customers across Northwestern Ontario and since 1972.

Across Northwestern Ontario and Manitoba Since 1972

Proud Distributors of the Following Product Lines

DWYEROMEGA

Instrumentation & Controls

Temperature

- Transmitters
- Indicators
- RTDs
- Thermocouples

Weighing

- Scales (Belt, Static)
- Integrators
- Load Cells
- Solids Flow

Level

- Radar Transmitters
- Ultrasonic Transmitters
- Continuous & Point
- Capacitance

Flow

- Electromagnetic
- Coriolis
- Clamp-On Ultrasonic
- Vortex

Pressure

- Transmitters
- Switches
- Differential
- Gauge

Analytical

- pH / ORP / Conductivity
- Chlorine
- Turbidity
- Sodium

Mechanical

Valves

- Ball Valves
- Butterfly Valves
- Knife Valves
- Solenoid Valves
- Gate Valves
- Relief Valves
- Check Valves

Actuation

- Positioners
- Pneumatic Actuators
- Electric Actuators
- Limit Switches
- Control
- In House Automation
- Linear Actuators

Pipes / Fittings

- Stainless Steel
- Carbon
- PVC
- Exotic Alloys
- Flanges
- Gaskets
- Lined Pipe

Accessories

- Hose (Braided + Rubber)
- Air Preparation
- Tube Fittings
- Expansion Joints
- Strainers
- Tubing
- Sight Glass
- Gauges
- Filters

Other Partners

TLV Corporation
Osesco

Conbraco
Swiss Fluid

Badger Meter Inc.
Buchanan Rubber

Durlon
Durtec

Limitorque
Edwards

For Your Industry.

- Pulp & Paper
- Mining
- Oil & Gas
- Fertilizer Manufacturing
- Water / Wastewater Plants
- Food & Beverage

Knowledge of instruments and control valves are very complex and require expertise and knowledge of process fluid dynamics, sensors, mechanical properties, piping design, chemistry, and electrical power principals.

Our staff has over 100 combined years of experience to help you keep your systems running.
